

ECOTONE™

Sustainable PVC-Free Wallcovering
for Healthier Spaces

By Lettermans

Overview

EcoTone™ is Lettermans' environmentally conscious wallcovering solution, crafted for spaces that prioritize sustainability without compromising design. Made from PVC-free material and printed with water-based Latex inks, EcoTone™ supports LEED goals and contributes to healthier indoor air quality.

IDEAL FOR

- ▶ Healthcare facilities
- ▶ Government buildings
- ▶ Schools and universities
- ▶ Brands focused on wellness and sustainability

WHY CHOOSE ECOTONE™

- ▶ PVC-free construction that supports green building initiatives
- ▶ Water-based Latex ink technology with no VOCs
- ▶ Smooth surface with high print fidelity for impactful graphics
- ▶ Backed by a 10-year manufacturer's warranty for peace of mind

YOUR VISION IN PRINT

EcoTone™ helps align your message with your mission by creating sustainable spaces that reflect your values.

Technical data sheets available upon request for specification purposes. Let us provide you with specification language to make specifying Lettermans easy.
